Some 500,000 additional children and pregnant women throughout Mississippi are eligible for polio vaccine following a recommendation of the State Advisory Committee on Voluntary Control of Distribution of Polio Vaccine, in session on Tuesday, October 18, when the priority age group, originally comprised of only 5-9 year olds, was expanded to include all children 1-14 years of age and pregnant women.

This committee recommendation, along with others, based on stepped-up flow of vaccine into the state, and the prospective rate of release of vaccine in the immediate future, as dispatched to all Mississippi physicians and druggists, is as follows:

Foresters Urge Hunters To Help Prevent Fires

With the opening of the squirrel season on the 15th of October many sportsmen will be taking to the woods of Mississippi to enjoy some hunting.

Along with the joy of hunting, however, there comes a great danger—the danger of forest fires.

It seems that when the hunting season starts the number of forest fires increases. Why is this? There are two reasons. First of all, dry weather goes along with the hunting season. This means that leaves, limbs and other material in the woods will burn easily than at any other time of year. Secondly, there are just more people in the woods during the hunting season than at other seasons of the year.

When people are out in the woods trying to get a few shots at some sly game animal they are naturally thinking of hunt and a little careless about the use of fire. Sometimes they don't stop to realize that when fires burn over the woods valuable timber is lost and the food supply and living places of game animals are lost. Hunters are going to in the woods by the thousands during the next few months and it is important to be careful with fire.

Here are some suggestions for preventing forest fires. Before building a camp fire, clear a good-sized area of all leaves and other material that might burn. When ready to leave the fire, it should be doused. Ashes from cigarettes, pipes and cigars should be crushed. Matches should be broken before throwing them on the ground.

Remember, carelessness is an important cause of fires in the woods. Through careful use of fire the forests can be preserved and good conditions for game animals can be provided.

National Guard Will Choose Soldier of Week

A "Soldier of the Week" will be selected each week from the local National Guard unit.

Announcement was made Monday night by Company Commander Lt. James J. Jordan, who further stated that the member of the Guard who receives this honor "will deserve it."

The "Soldier of the Week" will be selected on the basis of appearance, carrying out of orders, discipline, conduct in various classes and the many other things that can be added to the definition of a "Soldier."

It is hoped, Lt. Jordan stated, that some type of prize can be awarded to the guardsman, who is selected each week.

The story on the Soldier of the Week will be carried in each issue of the Sea Coast Echo.

The recipient of this honor will be chosen by a committee set up for that purpose, composed of members of the Guard.

Official Proclamation Proclaiming All Saints' Day as Holiday

SINCE November 1st of each year is known as ALL SAINTS' DAY and a time set aside when special tribute is paid to the memory of the dead; when the public visits the cemeteries and decorates the graves with flowers; and religious ceremonies are in order of the afternoon and it is fitting that one and all visit the "cities of the dead" and pay respect by their visit and in prayerful solicitation;

And since ALL SAINTS' DAY is recognized over this entire section of our Southland and in some places as a legal holiday and in Bay St. Louis always as a day of thought and consideration as befitting such occasion;

Therefore, I, John A. Seafide, Mayor of the City of Bay St. Louis, do issue this as the City's official proclamation declaring November 1st, 1956, a holiday; and further, officially request that all places of business be closed on that day, order that the public engaged in business and others employed may visit the cemeteries and pay respect to the memory of the departed.

Done at the City Hall this 17th day of October, A. D. 1956, and witnessed by the City's official seal.

JOHN A. SEAFIDE, Mayor.

Birdsong Cites Danger of Moving Injured Motorists

The danger of well-meaning but unqualified persons moving injured motorists from the scene of an accident was cited recently by Commissioner of Public Safety T. B. Birdsong.

General Birdsong explained that in several instances motorists who chanced upon an accident scene have carried injured victims to nearby hospitals, but the act of moving the victims themselves endangered their lives even further.

"Unless you are a physician," he stressed, "it is not a good idea to move an injured motorist from the scene of an accident. If you are the first person on the mishap scene, summon an ambulance immediately. Then telephone your Highway Patrol. If the accident is on the open highway, or your city authorities if the accident is in the city. Don't attempt to move the accident victim to a hospital yourself."

Ambulance service is prompt and experienced attendants quickly recognize the seriousness and type of injury involved. Persons with a broken neck or serious back injury, when handled properly and given prompt attention, in many instances, have survived automobile accidents.

It is a good policy to make accident victims as comfortable as possible, and if a blanket is available, to cover the more seriously injured victim to prevent shock, but never move a motorist to a hospital unless the victim's injuries are DEFINITELY of a minor nature.

Commissioner Birdsong stresses, "Keep your head at the scene of an accident. Summon authorities immediately, giving your name, exact location of the accident, and number of injured. If you have not previously advised the Highway Patrol or police dispatch with whom you are talking of the number of injured persons at the accident scene, they will send an ambulance, and the nearest ambulance.

Then return to the accident scene. If you are a witness to the accident, the investigating officer may wish to get a statement from you. Your presence of thought may save a life."

New Cemetery At Stanislaus To Be Biessed Wednesday, November 2nd.

On November 2nd, Rt. Rev. Lady of the Gulf Church will bless in the name of the Bishop the new cemetery site of the Brothers of the Sacred Heart in Bay St. Louis.

During the summer of 1954, the Brothers moved the bodies from the old cemetery site on the east side of Second Street to the new site, behind the Stanislaus Day School, on Second St.

On this coming All Souls' Day, the new cemetery will be blessed at 4 p. m. In the morning, at 9 a. m. a Solemn High Mass of Requiem will be sung by Monsignor McCarthy for the repose of the souls of all the deceased Brothers, students and friends of St. Stanislaus.

The Mass will be in Our Lady of the Gulf Church.

The ceremony of the blessing of the graves, at four p. m. will be attended by the Student Body and faculty of St. Stanislaus, and all friends of the school are cordially invited to attend to pay their respects to those buried in the cemetery.

In the cemetery are sixty-nine Brothers, five students and a relative of one of the Brothers, and a Forester, Commager, who was coach and member of the faculty for many years. The first Brother to be buried in the cemetery was Brother Francis who died in 1867. The last one buried is Brother Lawrence, who had been infirmarian at St. Stanislaus for about twenty years.

Striking one's attention in the cemetery is the newly erected Calvary Scene in marble on a Pressed-Stone base, the cost of which was partially paid by contributions of friends of the school.

Under present plans when Bay St. Louis' new dial telephone service is placed into effect, each subscriber will dial seven times to place a call, and each number will begin with the name Hometown. For example, a person desiring to call the local telephone office may dial HO 90000.

Bay St. Louis' advance to dial will put to use one of the company's late developments known as 355-A Non-Attended Dial System.

The building to house this equipment will be located at 108 St. Francis Street. The style, telephones, dial patrons will use is still indefinite. Mr. Dabney, manager of Gulfport, stated, "The past policy has been to modify the existing telephones, adding only a dial unit."

"There has been some question as to what effect this change will have on the 'Toll Free' or extended scope service now in effect. This new dial system will enable subscribers in Bay St. Louis to reach subscribers in Pass Christian or Logtown by simply dialing a key number which will give them the desired exchange, then dial the subscriber number with whom they desire to talk," Mr. Dabney added.

It is expected that, barring any unforeseen complications, Bay St. Louis' conversion to dial will be affected about the same time as Gulfport and Pass Christian.

Bay St. Louis subscribers wishing to place a long distance call, will dial the digit "0" which will connect them with the Gulfport toll operator, who will then place the call to the distant point.

"We, of the Telephone Company are enthusiastic about this step of progress. It not only indicates progress in the telephone business, but community progress as well," Mr. Dabney stated.

Holden Petition Eliminated By Commissioners

The election commissioners of Hancock County received two petitions from candidates for members of the School Board, Beat No. 1, namely, August Holden and Mrs. T. C. Wicker, Sr.

In examining the petitions, the election commissioners found that August Holden failed to have the required number of petitioners under the law, and thus, the commissioners could only see fit not to place the name of August Holden on the Official Election ballot.

This holding was in accordance with the ruling from the Attorney General, which stated that there has to be a minimum of fifty (50) qualified electors from the district on the petition.

High School Day To Bring 10,000 To Miss. State

A student-faculty committee completed plans here Friday to greet over 10,000 high school students expected on the campus for the annual High School Day activities scheduled for October 29.

After making tours of the campus during the morning,

Those who dropped by to wish Stanley many happy returns were Thomas Mayfield, Mickey McGill, Ashton Carver, J. D. Bourgeois, Don and Sylvan Ladner, Yvette and Guilan Drew, Aggie Bourgeois, Mary Toni Ladner Cheryl Ann Mayer and Debbie Wiedman.

Mr. and Mrs. O. E. Hickman of New Orleans were week-end guests of Mr. and Mrs. Herman Mazarakis.

the visitors will be guests of the school at the North Texas State football game scheduled for 2:00 p. m. at Scott Field.

During the half-time over 2,000 high school musicians—members of bands due to attend from all over the state will join the Maroon Band in putting on a mammoth exhibition of musical skill and precision marching.

Members of Blue Key and ODK, campus honor societies, and representatives of the Student Association will meet incoming delegations to welcome them to the campus and direct bus drivers to parking areas. The five schools of the college will hold open house until noon

and guides will show the high school visitors through the various departments.

Band director W. Thomas West said visiting high school band members will meet for a rehearsal at 10:00 a. m. at the baseball field to prepare for the half-time show that afternoon. A pre-game ceremony in honor of the visitors will include a short welcome address by President Ben Hilburn and a performance by the drill team of Scabbard and Blade, honorary military society.

Mr. William Hollingsworth, coordinator of student affairs and chairman in charge of arrangements for High School Day said interest shown in the annual event by high school officials is the greatest in recent years.

Sees Business Sound, Except For Politics

The continued good health of business and the stock market has been undermined by the confused political outlook and a growing belief that the chance of electing a Republican president next year is "no better than ever or perhaps worse," according to Emerson W. Axe, & Co., Inc.

Mr. Axe warned against a change of administration and its unfavorable effect upon business sentiment in a state of the economy message to the investing public. Aside from political considerations he found economic conditions today favorable to a continued high level of business activity and confidence.

He summoned up the performance record of past Democratic administrations and said that "the business and common stock situation of 1954-55 has depended more upon confidence in the political situation and longer-term outlook than on any other factor."

"The question the investor faces, therefore, is not whether the outlook has deteriorated but the extent of the deterioration," he said.

"After six out of the eight Democratic presidential victories (1892, 1912, 1916, 1936, 1940 and 1948) common stock prices declined more or less seriously and in all but one of these six instances there was also a decline in general business activity."

In one of the remaining two cases, 1932, both business and security prices had been so severely depressed before the election that an upturn was inevitable—and had indeed actually occurred in key indexes several months before the election. In both these cases strong inflationary forces were building up."

Mr. Axe said that the investor's problem today is complicated by the high level of stock prices in relation to earnings and assets.

But the economic factors governing the future of common stock prices, he said, still show a balance on the favorable side.

"There is no sign of an immediate business down town," he continued, "and with activity in building, automobiles and defense work likely to continue high for at least another year about the worst that can be expected is minor fluctuations at a generally high level."

"Money rates are rising, but at a slow pace, and the resources of the Federal Reserve System are so great that no

Introduce New Chevrolets On Friday, Nov. 4

Climaxing a sales year that promises to set new all-time records for the automobile industry, Chevrolet will introduce 1956 passenger cars Friday, November 4.

The new models will go on display simultaneously at dealer show rooms across the country. Although details have been withheld, the company has reported the forthcoming line is the most diversified in its history.

W. E. Fish, general sales manager of Chevrolet, predicted one of the company's most successful retail showings.

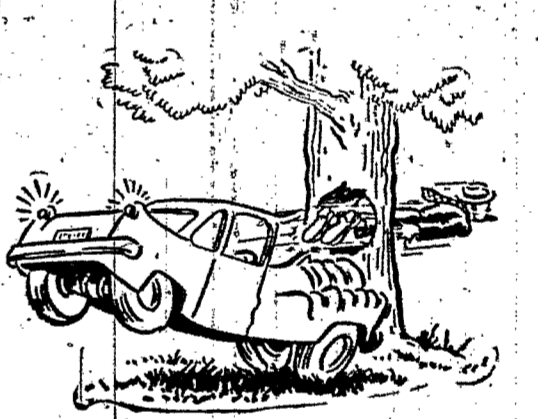

"This is the biggest day of the year for Chevrolet dealers," Fish commented, "and they traditionally go all out to make it a memorable occasion for the people who visit their showrooms."

Special entertainment, decorations and favors are an accepted policy by thousands of dealers. The expense in showroom trim alone will run well over \$3,000,000. Dealers want to be certain that the background and setting of the new cars do justice to their many improvements."

A feature at many showings this year will be demonstration that clipped a full two minutes off the Pike's Peak hill climb record. The officially certified mark was set in Sept. with a heavily disguised 1956 model.

serious credit strain is to be expected soon. Business in foreign countries has improved satisfactorily over the past several years and is an additional support to business in this country."

While inflationary forces must undoubtedly be reckoned with in the long run, Mr. Axe concluded, "the negative side of the situation now comes down to a question of the extent to which security prices will take account of the worsening political outlook and the nature of political developments over the next year."

BIGGER PAYROLLS in the Gulf South

Many thousands of jobs—and many millions of dollars in payrolls—have been created in new industries in the Gulf South. Ours is the fastest-growing industrial region in the nation. This fact has been told and retold in many ways to industrialists who may locate plants in the area. Not the least of the industrial development efforts of the Gulf South has been the advertising program sponsored by United Gas in such

publications as TIME, NEWSWEEK, UNITED STATES NEWS, BUSINESS WEEK and WALL STREET JOURNAL. United Gas is proud of its part in the industrial development of the Gulf South, not alone through its advertising to attract new industries, but through its ability to assure any industry locating on its lines that it can be certain of a dependable supply of the world's finest fuel—natural gas.
